

Last Updated: 21.12.2017

Product Code: MW0622

GUN & RIFLE OIL is an excellent general-purpose light mineral oil for all guns, accessories and associated equipment requiring a light oil. Based on specially selected low viscosity, highly refined mineral oil combined with corrosion inhibitors with water displacing properties making it ideal for the protection and coating of all guns and accessories.

The product quickly penetrates and loosens rust and other contamination from all fittings and threads leaving a light film of corrosion protection without drying which enables easy storage and use of equipment when required.

APPLICATION

Gun & Rifle Oil works immediately on contact and rapidly penetrates to coat and protect components and equipment.

This high quality lubricant helps to prevent the formation of rust and corrosion, extending the life of guns and accessories.

BENEFITS

- Excellent lubrication properties
- Protects components from rusting and corrosion
- Penetrates to loosen rust

TYPICAL PROPERTIES

Kinematic Viscosity @ 40°C:	22.0 cSt
Appearance:	Light straw liquid
Specific Gravity @ 15°C:	0.86

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
