

Last Updated: 21/01/2016

Product Code: ID0026

INSTANT DEGREASER is an effective cleaning fluid blended from non-ionic and anionic emulsifiers in a solvent base, and formulated for the effective removal of grease deposits and grease film from component parts in the industrial and automotive industries.

APPLICATION

Use as received - brush in well to loosen heavy deposits and then wash off with water. Dry off water and repeat if required.

BENEFITS

- Ideal for use in cleaning baths and parts washers in conjunction with a brush for degreasing automotive and engineering parts.
- Machinery and other parts may also be cleaned in situ without removing from engine mountings.
- Formulated so that low levels of application ensure optimum cost effectiveness in use.

TYPICAL PROPERTIES

| | |
|--------------------------------|--------------------------|
| Colour: | Pale Amber |
| pH of Aqueous Solution: | 7 (10% aqueous emulsion) |
| Density @ 15.6 ^o C: | 0.820 |

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
