

SYNMAX ULTRA VW 5w30 is a high performance, full synthetic engine oil formulated for use with the latest technology in VW/AUDI Group petrol and diesel engines.

APPLICATION

Designed to meet the exacting demands and requirements of the latest VW/AUDI Group specifications VW 504.00 and VW 507.00 for use in passenger cars and light commercial vehicles with both petrol and diesel engines.

Suitable for VW/AUDI Group vehicles both with and without Diesel Particulate Filters and Three Way Catalysts, including turbocharged versions and those with variable service intervals up to 50,000km / 2 years.

Note: Not suitable for pre-2006 Touareg R5 and V10 TDi models - please refer to vehicle handbook to confirm specific vehicle oil requirement.

BENEFITS

- Modern LOW SAPS formulation with additional anti-wear capability to meet the current, stringent
- VW/AUDI Group standards.
- Exceptional thermal stability provides protection even under the most severe operating conditions
- Provides critical protection during cold starts
- Stay-in-grade properties ensure low levels of volatility at high running temperatures

PERFORMANCE PROFILE

Suitable for use where the following specifications are required;

- VW 504.00 / 507.00

TYPICAL PROPERTIES

Kinematic Viscosity @ 100°C:	11.8	Sulphated Ash, %:	0.6
TBN, mg/KOH/g:	6.0		

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
